In the same vein as Gone Girl or Girl on the Train, it can't put down a psychological thriller. The magazine's library (star review)Newlyweds Grace and Jack Angel seem to lead the perfect life in the exciting debut of the British author of Paris, but the performances can be deceptive ... Grace's terror is contagious, and the impending danger of Millie creates a ticking clock that moves this claustrophobic tale of a cat and a mouse to her horrible, pleasant conclusion. Publishers Weekly Eerily cool portrait of a serious sadist, behind closed doors - this exciting, claustrophobic thriller ... Behind closed doors is another outstanding debut novel, and one that has come highly recommended to me by people who understand my taste in books. The story sucked me up quickly, delivering that concussion blow to my psyche and then pumping adrenaline with blood-pounding intensity, leaving me with sweaty palms and my heart racing at warp speed. Grace has a beautiful, devoted husband, a beautiful home and, apparently, an ideal life. But as we all know, looks can be deceptive. Grace almost gave up on marriage because she was happily responsible for her mentally challenged sister, Millie, and the two package deal, but some men just can't handle it. But, when Jack meets Grace and Millie, he immediately knows Grace will be the one for him, and of course Millie live with them. It's going to be great, but one day Married, Grace learns married life isn't all it's cracked up to be, but no one will ever guess how really unhappy she is because no one knows what's really going on behind closed doors... Usually when the subgenre becomes mega popular and tons of books flood the market trying to cash in on the trend, I burn on it quickly. But, I've always loved a good mind game, a dark, tense psychological thriller that keeps you on edge from start to finish. So, I love all these new novels of suspense, and I love the new talent bursting to the fore, which is long overdue. While most of any debut novel will stand on wobbly legs, at least to some extent, this one is pretty solid, and totally unique. I felt the sucker hit as soon as I got a few heads and it took me a while to get rid of the cobwebs. As soon as I got my bearings back, I was chained to a race-time atmosphere, and filled with a sense of dread, wanting to yell at the characters to do something! Anyone, anyone! I got my wish from the most unlikely sources and I loved this part best. This author has the right idea, knows how to create a tight situation, and knows how to evoke emotions too, something many of these new psychological thrillers are missing. I have to take care of the characters in some way. Love them, hate them, anyway, but they must have some complexity, or development in order for the reader to feel fully engaged, and this one scores on this front, which is impressive given the atmosphere of the novel. If you like psychological anticipation, you don't want to pass this up! All in all, a stunning debut! ... More... More
